## PROFESSIONAL SUMMARY

Highly experienced and skilled Java Backend Developer with over **6 years** of expertise in designing, developing, and deploying scalable, enterprise-level applications. Proficient in Java 8/11, Spring Boot, Microservices, REST APIs, and Azure Cloud. Strong understanding of SDLC, Agile methodologies, and performance optimization. Proven ability to successfully migrate legacy systems to cloud environments and enhance CI/CD pipelines. Adept at test-driven development (TDD) and securing microservices.

## TECHNICAL SKILLS

**Languages & Frameworks:** Java 8, Spring Boot, Microservices, JPA, Hibernate

**Cloud Platforms:** Azure

**Tools & Platforms:** Git, Maven, Gradle, Postman, Swagger, Generative AI (ChatGPT, GitHub Copilot)

**Databases:** Oracle

**Testing:** JUnit

**Methodologies & Concepts:** REST APIs, Agile, CI/CD, SDLC, Test-Driven Development

## PROFESSIONAL EXPERIENCE

Accenture, Noida (*Java Backend Developer*)

*Jan 2024 – Present*

### AT&T Project

- Contributed to the analysis and design phases of the Software Development Lifecycle (SDLC).
- Developed managed beans and DAO classes for business implementation.
- Responsible for code reviews (peer review), unit testing, providing support to testing team, defect fixing, defect triaging, root cause analysis and release/deployment support.
- Strengthened microservice security by implementing JWT authorization, safeguarding sensitive data.
- Developed components using a test-driven development (TDD) approach with JUnit.

### Walmart Project

- Migrated high-traffic applications from on-premises infrastructure to Azure Cloud, improving scalability and efficiency.
- Refactored and updated Gradle dependencies, improving build stability and maintainability.
- Documented application architecture changes, streamlining future upgrades and maintenance.
- Collaborated with clients to forecast traffic and scale services accordingly.

Tata Consultancy Services, Noida (*Java Backend Developer*)

*June 2019 – Dec 2023*

### Walgreens Boot Alliance (WBA)

- Participated in full SDLC using Java, from requirements to deployment and maintenance.
- Migrated applications to Azure Cloud with minimal downtime and optimized resource use.
- Integrated Spring Boot apps with Azure services for seamless cloud transition.
- Utilized Spring Boot auto-configuration to reduce boilerplate and updated config files.
- Developed unit, integration, and E2E tests to validate post-migration functionality.
- Upgraded build tools (Gradle/Maven) to Spring Boot 2.7 and Java 8/11 compatibility.

## EDUCATION

<b>Swami Vivekanand Subharti University</b> <ul style="list-style-type: none"><li>• Master of Business Administration</li></ul>	<b>2022 – 2024</b>
<b>GL Bajaj Institute of Technology &amp; Management</b> <ul style="list-style-type: none"><li>• Bachelor of Technology in Computer Science and Engineering.</li></ul>	<b>2015 – 2019</b>
<b>New Lancers Convent Sikandrabad</b> <ul style="list-style-type: none"><li>• CBSE (Class XII)</li></ul>	<b>2014 – 2015</b>
<b>New Lancers Convent Sikandrabad</b> <ul style="list-style-type: none"><li>• CBSE (Class X)</li></ul>	<b>2012 – 2013</b>

## CERTIFICATIONS & ACHIEVEMENTS

- Certified in Azure Administrator (AZ-104).
- Certified in Azure Data Fundamentals (DP-900).
- Certified in Azure Fundamentals (AZ-900).
- Azure Administrator (AZ-104) Certified.
- Achieved Performance Band A for three consecutive years.
- Awarded 'On the Spot Award' more than 5 times for outstanding contribution to the organization at TCS.
- Appreciation from the Client on multiple occasions for the timely delivery of critical requirements of the project.
- Received performance recognition from supervisors and management for exceptional contributions to team success and project outcomes.

## POSITIONS OF RESPONSIBILITY

- Led a successful application migration from on-premises to Azure Cloud.
- Facilitated efficient knowledge transfer sessions for new team members, reducing onboarding time by 30%.
- Provided comprehensive end-to-end development support, from inception to successful deployment and maintenance.
- Led Agile development, leading sprint planning sessions and fostering collaboration within the team for seamless project execution.
